

# NATIONAL HUMAN TRAFFICKING AWARENESS DAY WEBINARS

As part of your commitment to address human trafficking, these virtual sessions will help broaden awareness among your employees about the realities of human trafficking, how it affects their communities and industry and how they, both as individuals and leaders in transportation, can actively combat it.

## Modern Slavery at Work: Recognizing and Responding to Labour Trafficking in Canada

### Session features:

- Presentation by a TAT representative
- Q&A discussion
- Take-away resources and action steps

Labour traffickers make \$64 billion in illicit profits annually through the exploitation of vulnerable individuals in forced labour situations. By hiding in plain sight, labour traffickers are able to capitalize off victims through industries we interact with in our everyday lives. In this session, you will learn how to evaluate the risks of labour trafficking and develop a plan to prevent, detect and respond to it in the communities you serve.

## Shut Out Human Trafficking: Major Sports Events and Human Trafficking in Canada

*Featuring TAT's Driving Force partner, UPS*

### Session features:

- Presentation by a TAT representative
- Presentation by a UPS representative
- Q&A discussion
- Take-away resources and action steps

Human trafficking is an everyday and everywhere issue, but significant increases of people in concentrated areas can lead to location-specific spikes. As the need for transportation services also increases in those areas, the trucking, truck stop, transit and motorcoach industries are uniquely positioned to make a difference. This session will discuss the connection between major events and human trafficking, explore how the public and private sectors can bolster their vigilance, and feature a case study from UPS.

For any questions, please contact Annie Sovcik at [asovcik@tatnonprofit.org](mailto:asovcik@tatnonprofit.org)

**Thursday, Feb. 26, 2026**  
**Noon-1 p.m. (ET)**
